# JETFORCE

MICROJET FOR WOUND CLEANSING & DEBRIDEMENT

## A Jet Lavage System for Wound Cleansing & Debridement of Chronic Wounds like

-Diabetic Ulcers      - Pressure Ulcers      - Venous Stasis Ulcers      - Burns

## Patented Innovation from Israel, with International Approvals

- USFDA      - MOH Israel      - CE Mark

## Revolutionary Approach for use in

- In-Patient, Out-Patient Units      - Wound Care Centers      - Emergency  
Departments      - Burns Unit      - Long Term Care Facilities

## Comprehensive Innovation for Cleansing and Debridement

- JetForce system shoots a firm and focused stream of water droplets (Normal Saline) mixed with Oxygen.
- Clinically effective for painless wound cleansing without disturbing healthy granulation tissue.
- Microdrops created by JetForce are between 5-100microns and are accelerated up to 200 meters per second.

## Features & Benefits

### Patient

Process with less pain  
Preserves granulation tissue  
Promotes angiogenesis and activity of fibroblasts

### Doctor

Decreases the use of analgesic  
Minimizes the dressing frequency  
Shortens healing time

### Hospital

Quick and easy to setup  
Lightweight, portable & disposable  
Cost effective bedside care

Imported & Marketed By:

A division of

FULLIFE HEALTHCARE PVT. LTD.

315 Woodrow, 19 Veera Desai Road, Andheri West,  
Mumbai - 400 053, India | Tel: 022-4210 4800 | E-mail at: info@H-force.co.in
